PASSION *for* LIFE

Antoine Gaber

Gaber was born into an artistic family, in 1957, in Cairo, Egypt. Through a rich family tradition in the performing arts, as well as the influence of legendary actors, pop singers, songwriters, has enabled Gaber to develop a profound appreciation of artistic expression.

Self taught, Gaber only began painting in 1994, relying on the inspiration of work by Monet, Renoir and Van Gough, to guide him in his interpretation of landscapes, seascapes, still life and florals. His passion for art is boundless, as his marriage to his professional career as a clinical researcher in the treatment of cancer and hepatitis B.

He is equally passionate in his support of charities, remarking, "I have always kept it in my mind to help people, to use my talent for a good cause."

As a clinical researcher in oncology, I have come to appreciate how precious life truly is. From the journey faced by those fighting to overcome illness, to the artistic endeavours I have experienced, as I continue through my journey of self-expression, one becomes acutely aware life is more than simply existing. It truly is a celebration. If you choose to embrace every day to the fullest, mixing it with a sense of wonder and purpose, you, too, will discover your inner peace. You, too, will realize your passion for life.
