8.00 - 9.00 am Registration

**9.00 - 10.40 am SESSION 1:**

Screening and early detection of primary breast cancer

Current tumour markers

Autoantibodies

- p53 - T Soussi
- MUC1 - Sylvia Mensdorf-Pouilly
- C-erbB2 -
- Nottingham Data - John Robertson
- Discussion

RT-PCR - Henri Magdelenat

**10.40 - 11.10 am Coffee/tea**

**11.10 - 12.25 SESSION 2:**

Early detection of recurrent disease

Diagnosis of metastases - CA27.29 & CA15-3

- Massimo Gion

Longitudinal study of CA27.29

- Herb A Fritsche

Two pilot studies

- Kwok Leung Cheung

Monitoring therapy by serum c-erbB2

- Morton Schwartz

**12.25 - 1.10 pm Lunch**

**1.10 - 1.30 pm AGM**

**1.30 - 3.00 pm SESSION 3:**

Staging of primary breast cancer

MUC-1 mucin:

Dublin experience - M J Duffy

Galway experience - H F Given

VEGF - M J Kerin

- N J Bundred

RT-PCR - A Katz

**3.00 - 3.30 pm Coffee/tea**

**3.30 - 5.00 pm SESSION 4:**

Tumour markers for management of bone metastases

Established markers

Bone markers and bisphosphonates

- R E Coleman

- E Bombardieri

Quality of life - L Fallowfield

PTHrP - T A Guise

**5.00 - 7.00 pm Reception and art exhibition of work of Gaber**

Breaking new ground in oncology
